

Open Science

ZPID is the Public Open Science Institute for Psychology. All of its services are always accessible to various interest groups.

Our services

leibniz-psychology.org

Become part of the open science movement

The Leibniz Institute for Psychology (ZPID) in Trier, Germany, is an internationally renowned research support organization in psychology and a member of the prestigious Leibniz Association. Our mission is to establish excellent conditions for researchers to adopt open science practices.

We are currently offering an infrastructure and research position to be filled by a

Software developer / Research associate (m/f/d)

(salary group up to TV-L E13, 25%, limited to 2,5 years)

Preferred start date is May 1st, 2021 or later.

The successful applicant is expected to develop, implement, and optimize the infrastructure application *PsychNotebook* according to a requirements profile using SCRUM. *PsychNotebook* is a platform that offers software (e.g., R Studio, JupyterLab) for statistical computing, the presentation of data, and the joint planning of research projects.

You will work in close collaboration with the department head of the study planning, data collection, and data analysis services and you will be part of the software development team of *PsychNotebook*. Product development will be accompanied by research projects evaluating the usability/UX of *PsychNotebook* or ZPID's other services/products.

The salary will be up to TV-L E13 depending on your qualification.

During the ongoing pandemic, we have switched to remote work (but with the option to work from the office). However, we will return to work in our office in Trier once the pandemic is over.

Your profile:

- Master's degree (or proven record of capabilities) in computer science, software engineering, media informatics or a related discipline
- Experience with HTML, JavaScript and the Vue.js ecosystem
- Experience with UI design
- Proactive, results-oriented, and independent working style
- Experience with Linux, Python, and alternative approaches to package management (e.g., guix) are a plus
- Experience as R developer is a plus

Find out more about *PsychNotebook* under <https://leibniz-psychology.org/en/services/study-planning/>.

For further information, please contact Dr. Stefanie Mueller via stm@leibniz-psychology.org.

In order to apply, please register with our online portal here
